3rd Grade Overview

Third grade students explore new skills during the year. In religion, they attend a retreat and work on growing in virtue as they learn about a different virtue each week. The students develop their writing skills by writing personal narratives, and they spend time learning about the elements of poetry. In math, the students develop fluency with multiplication, and they explore fractions and decimals. The students learn about the weather and then a meteorologist visits the students. A few memorable events that happen during the year include researching a saint, creating a saint puppet, and having the option to serve at the school Mass as members of the choir.

Our goal is to partner with parents to nurture the growth of a child's heart, mind, body, and soul.
We are Catholic promoting the teaching of the Church.
